# Course Information Sheet

**Neuroscience in Early Years Level 2 Certificate** 

OCSW F01EV99Al Award in Neuroscience in the Early Years Level 2 (oncourses outhwest.co.uk)

### **Course Description:**

Unlock the potential of young minds! Explore the fascinating world of neuroscience in early years, equipping you to support children's development.

Understanding the brain is key to nurturing young minds. This qualification empowers you with the knowledge of how a child's brain develops. You will delve into the science of early brain development, explore the impact of experiences on learning, and learn strategies to support optimal brain development.

## Key areas covered include:

- Introduction to neuroscience, brain development stages, and the impact of early experiences.
- Exploring the role of sensory play, movement, and physical development on brain function.
- Understanding the impact of social interaction, emotional well-being, and attachment on learning.
- Learning about language development and cognitive skills through a neuroscience lens.

## Who should join this course?

This course is ideal for:

- Early years practitioners, teachers, or childcare professionals who want to deepen their understanding of child development.
- Parents, guardians, or carers seeking a scientific perspective on supporting young children's learning.
- Anyone interested in the science behind early learning and brain development.

## **Entry Requirements**

Previous level 1 maths and English achievement or demonstrating the ability to work at these levels is recommended

## **Progression Opportunities:**

This course can serve as a stepping stone to further qualifications in early years education.

#### How do I enrol?

To apply for this course online at www.oncoursesouthwest.co.uk and simply click on the 'How to Enrol' button and complete the Enrolment Form and one of our customer service team will be in touch or call to speak to one of our friendly Learning Advisors on 01752 660713. You will be invited to undertake an initial assessment to ascertain your levels of English and maths prior to entry on this course of study.

#### How will the course be delivered?

This is an **E-Learning course** and is exclusively delivered via an online learning, self-study programme. You will be enrolled for an online learning platform and will work independently through the units and materials provided.

## Will I need to practise outside the classroom?

This is an E-learning course, and your study pattern is self-managed. A commitment of 2 - 3 hours per week is suggested to enable successful completion of the course within the timescale of 20 weeks.

## How will I know I'm making progress?

You will receive regular feedback from an assessor following completion and submission of individual units.

#### What will I need?

A laptop or desktop computer with internet access is required for completion of coursework and home learning

#### Please note:

Most courses attract a subsidy from the Education and Skills Funding Agency (ESFA). It is a requirement of the ESFA that you complete various forms at different stages of your course,

further information is available on request. Courses are subject to a minimum number of enrolments and could be cancelled if recruitment is low. In some cases, an alternative class at a different location may be offered.
